Otho Switzer Dies; 24 Year Cypress Citizen

One of the town's best liked businessmen and most respected citizens, Otho Switzer passed away quietly at his home at 8781 Moody St. Wednesday afternoon at four o'clock.

A Cypress booster for 24 years, the prominent realtor was active in many civic affairs. Until forced into semi-retirement a year ago in March when he entered into his last long period of illness, he tended to matters at the Cypress Realty company with his partner, Bill Gutosky. His health had been failing ever since, forcing him to remain at home the past several months.

Surviving are his wife, Rena, and a daughter, Mrs. Dorothy Thompson, of Kansas City.

Avoid Paying Heavy Fines; Get Fire Permit

Since the dry season is again coming up and the Cypress volunteer fire department is often called out because of trash fires which get out of hand, the importance of obtaining a fire permit is being stressed.

By simply going to the Cypress hardware or the Cypress beverage store, a permit can be obtained without cost or obligation.

This eliminates the person's having to pay for the cost of calling out a fire truck in case the fire gets out of hand — provided the fire was being burned according to the rules put forth in the permit.

The bulletin concludes with, "Due to prevailing wind that usually starts before noon, we will ask that you burn only from 6 a.m. to 10 a.m.

Kelley's Insurance Office, Hay Yard Opened Monday

Final arrangements were made this week for the opening of Haskell Kelley's insurance office and hay yard at 5446 Lincoln Ave. which opened Monday.

Kelley purchased the property recently and converted the house into office rooms. Mrs. Kelley will attend to phone calls and give notary public service.

The hay yard will be in the charge of Raymond Kelley, brother of Haskell.

CHANGE SCHEDULES OF MAIL PICK-UPS

Announcement was made this week by Ruth Pugh. postmaster, of a change in mail pick-up schedules, due to the new Highway postal service which now serves Cypress.

A pick-up will be made at 6:55 a.m. by a delivery going from Santa Ana to Los Angeles. At 1.26 p.m., the mail goes out in the opposite direction, while the pick-up at 5:30 p.m. goes to Los Angeles again.

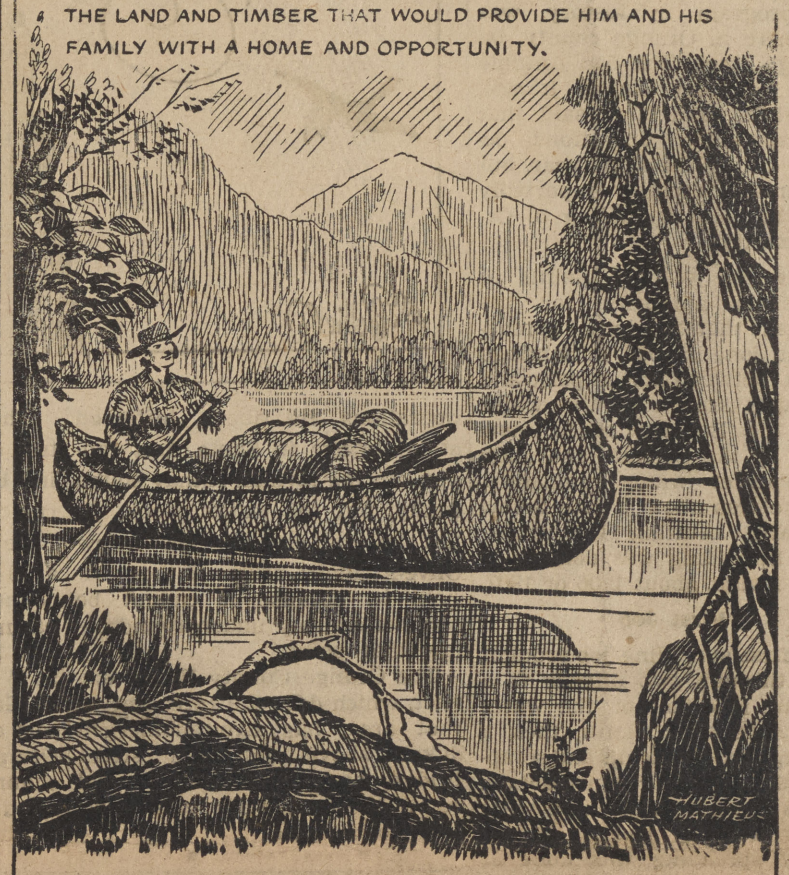
APPOINTED TO POSITION

Lt. Commander D. R. Shaul, USNR, of the Naval Air station at Los Alamitos has been appointed project officer for Los Alamitos for the Armed Forces day community project.

OUR DEMOCRACY——by Mat

"PADDLE YOUR OWN CANOE"...

IN THE EARLY DAYS OF OUR DEMOCRACY, THE PIONEER OFTEN PUT ESSENTIAL TOOLS AND RATIONS IN A CANOE AND PROCEEDED UP RIVERS AND STREAMS, SEARCHING FOR A FARM SITE... PADDLING HIS OWN CANOE, HE FOUND THE LAND AND TIMBER THAT WOULD PROVIDE HIM AND HIS FAMILY WITH A HOME AND OPPORTUNITY.



TODAY, THIS EXPRESSION, IN COMMON USE SINCE PIONEER DAYS, STILL SYMBOLIZES INDIVIDUAL INDEPENDENCE AND INITIATIVE... IN MODERN USEAGE, IT APPLIES TO THE OPPORTUNITY AND RESPONSIBILITY OF THE INDIVIDUAL, THROUGH HIS OWN FORESIGHT AND EFFORTS, TO PROVIDE FOR THE SECURITY AND WELL-BEING OF HIMSELF AND HIS FAMILY.

Soliciting Laws To Be Retained In County Areas

In spite of the efforts of the Santa Ana Chamber of Commerce to have regulations on solicitors in unincorporated areas scrapped, the board of supervisors refused to repeal the regulations they recently passed to control such activities.

Ordinances requiring the registration of certain types of peddlers were the ones in question. Two weeks ago, the Santa Ana chamber announced its drive to "scrap" such ordinances, after claiming to have contacted chambers and other organizations around the county and finding that sentiment was in favor of such a move.

The Cypress chamber had never been asked its opinion up to the time such an announcement was made last week, according to James Broadbelt, president.

SAYLOR'S HOUSE IS ENTERED; WATCH, PIGGY BANKS TAKEN

Elmer G. Saylor's home at 5612 Bishop St. was entered during the daytime early this week and two piggy banks and a watch were taken.

Estimated value of the loot was not learned at press time, but it was known that the robbery took place while Mrs. Saylor was gone and none of the children were at home.

Paul Bell has moved into the guest house on the Frank Noe property, 5221 Lincoln Ave.

WATER COMPANY LAYS PIPE FOR MERCHANTS EAST OF PE TRACKS

Connecting on to their main lines on Walker St., the Southern California Water company is laying pipe this week to furnish seven customers with water.

Cypress residents have been noting the torn up pavement along the south side of Lincoln avenue in the business district during the week. According to the foreman in charge of the work, satisfactory progress is being made and it won't be long until normal traffic will be able to be resumed again. Seven water company patrons will receive service from the new line.

PERMIT FOR 300 COW DAIRY CUT TO 240 MONDAY

A permit was issued Monday by the county board of supervisors to the Visser Brothers' dairy, located on Orange St., east of Denni Rd.

Originally, the Vissers applied for a 300-cow dairy permit, but it was cut by the board to 240. There was no protest to the application.

Mrs. Eugene Huckabee is leaving Friday for Norman, Oklahoma. She will drive with friends from Corona on the visit to her mother, whom she has not seen for three years. She plans to be away about two weeks. The three school-age Huckabee children will be cared for by their aunts, the Misses Geneva and Ninabelle Huckabee.

QUEEN CONTEST BEGINS TODAY; VALUABLE PRIZES ARE OFFERED

Ballots which will eventually elect the Cypress candidate for Orange county's "Queen of the Air" can be found in the Chamber of Commerce's page advertisement on page three of this ENTERPRISE.

Fifteen Dollar Cash Prize

C. R. Rogers, chairman of the Cypress chamber's search for a queen candidate, announces that a fifteen dollar cash prize has been offered to the girl who wins the local race. If she goes on to win the county contest, she will be given an outfit of clothing, and a trip to Apple Valley by air. In addition, she will be honored at a mammoth banquet in the hangar of the Orange county airport May 20, under the auspices of the Associated Chambers of Commerce of Orange county. The banquet is celebrating the second annual Orange County Aviation caucus.

Local contestants will be voted on by their friends through the use of the ballots in the ad on page five. Additional ballots may be sent in for the contestant by picking them up at the stores sponsoring the chamber ad.

The three girls receiving the most votes after the count has been made of the coupons, will be voted on at a special meeting of the chamber. Only paid up members of the organization will be eligible to vote, and the Cypress representative for queen will be selected by that vote.

So, all Cypress girls between the ages of 16 and 25, and their friends, had better check page five and get the ball rolling for their favorite queen candidate. Full details and contest rules will be found there.

Firemen Buy Hydrants Out Of Own Pockets

Believing that adequate fire protection is a very important factor in Cypress, members of the volunteer fire department are digging deep into their own pockets to help provide fire hydrants.

At the regular monthly business meeting of the group last Monday evening, it was voted to buy one of four hydrants which are available at a reduced cost. The Chamber of Commerce has indicated its willingness to stand the expense of another fire plug.

Funds Needed

In the event that individuals or other organizations would desire to donate into the fund to buy the two additional plugs, they may contact President J. C. Napier of the department, or leave their donations at the Cypress hardware or Kelley's new office.

Means have been provided to eliminate to some extent the inconvenience caused members of the crew from the annoyances of false alarms placed by pranksters.

When county fire chiefs are entertained in Cypress at their June meeting, the women will serve the dinner to the members and their guests.

Mr. and Mrs. C. M. Hamilton are enlarging their home on Walker St. by the addition of a large bedroom on the south of the house which contains a picture window.

THIS AND THAT

APPEARS ON PROGRAM

Mrs. Madge Lyen from Cypress was one of a group who entertained at the installation of officers of the Business and Professional Woman's club in Anaheim last Wednesday evening. She presented her sketch "Just Fishin'" which was written by her husband, the late C. F. Lyen. Others on the program were from the Richards-Martin school of the dance.

Guests included visitors from chapters in Riverside, Los Angeles, Laguna Beach, Orange, Fullerton and Hollywood. About 100 were present at the Mother Colony house rose room where the ceremonies took place.

PICTURES IN MAGAZINE

Included among the "pictures of the week" in a new little pocket size magazine on the market for the first time was one of David Thomas and Sandra de Polter. The clever story explained how "Sandy" knew she was old enough to play with big kids, and proved it by saving David's life when he became the victim of an accident at play which suspended him by the neck from a tree. He was rescued by Sandy's daddy.

In the picture, David is shown kissing "Sandy" to show his appreciation.

SURPRISE PARTY

When Mrs. W. E. Jeffrey arrived home from her duties as waitress at the Triangle drive-inn Friday evening, the fact that it was her birthday had slipped her mind. That only made the surprise more complete which was planned by her husband "Jeff."

Joining in the birthday celebration for Arline were Mr. and Mrs. Milton Parker, Mr. and Mrs. Grove Anderson and her sister Betty and the latter's fiancee Bill Rathburn of Glendale; Mrs. Ed Higgins, Mrs. I. W. Nix, and Mrs. John Thomas.

Also present were Jeffrey's parents, Mr. and Mrs. A. T. Jeffrey of Hawaiian Gardens and the celebrant's mother, Mrs. Grace Stewart, of Pasadena.

Birthday cake with homemade strawberry ice cream was served with coffee following an evening of listening to records in the host couple's collection.

TELEPHONE HOUR GUEST STARS RETURN IN MAY

Six artists will be featured on the Telephone Hour's five weekly programs in May, it was announced this week by R. J. Rossberg, manager of the Pacific Telephone and Telegraph company.

I RISE TO REMARK
by John Phillips

When this letter is read in the District, Congress will have concluded general debates on the "packaged budget" bill, and will be in the final stretches of amendments under the "five minute rule."

Under general debate, a member wanting to talk on a bill must get an allotment of time from the committee handling it; when that is over, anyone may offer an amendment and is thus entitled to five minutes to explain it. That has given rise to the custom of the pro forma amendment." The member moves "to strike out the last word;" then is entitled to five minutes, then the pro forma amendment is withdrawn. It is a curious custom, but it is a time saver. Our procedures put the new or inexperienced member in a sort of daze for months after his arrival.

Lost Time

The packaged budget has not been a success. The idea was intriguing, but we have lost time, and there has not been the opportunity to analyze this budget as there was when the sections were brought to the floor separately. It is hard to keep up the interest of the members when the budget is under discussion in bulk. It is a packaged budget in name only. The idea was sold the people that this would be the only budget, and therefore we could determine at one time the total figure for all appropriations. We will have two or three deficiency bills, we had the ECA appropriation separately, and we will have the D. C. appropriation and others. Those of us who warned against the mechanics of the "packaged budget" have the doubtful pleasure, if we want it, of saying. I told you so, but that doesn't help work out the present difficulties, many of which will have to go, this year, to the Senate for correction.

Complaints

I spent several hours Friday listening to the moans of the dried fruit industry, over the fact the Department of Agriculture is now insisting on substituting federal inspection, and an increased number of federally appointed inspectors, for the 40 year old industry system of inspection. I am reminded of that conference, after writing the paragraph just above this one, by the fact that the California delegation subcommittee on agriculture warned the industry several years ago, that this would happen inevitably if it accepted subsidy or export aid from the federal government. Federal controls are as inescapably associated with federal aid as day with night. ham with eggs, or waffles with maple syrup. Think of it when you talk, at home, about federal money, or aid from Washington.

And, when you talk about the so-called "Brannan Plan," you might read the only bill which has attempted to put it into print, S. 1971, by Senator Thomas. Now somewhat difficult to obtain, it is interesting for three things: it is 86 pages long, and then doesn't fully explain the "plan;" it does not, in the bill, nor in arguments describing it, attempt to give an estimate of the impending cost to the taxpayers, especially the smaller taxpayers; and most of all for the 17 pages of regulations and penalties needed to enforce it. Farmers, for example, who failed to keep and furnish such proof of their operations "as the Secretary may prescribe," could be subject to a fine of $1,000 or a year in jail.

The price of the easy life, delivered in the form of cash benefits from Washington, is the loss of liberty. This is slavery. It is, in truth. the original and only successful "welfare state."

COUNTY COMMENT

By GEORGE E. HART,
Orange County Press Bureau

Water spreading has an uninviting sound as a topic, but its importance to the Orange county economy is not generally realized. It may be a surprise to know that a lot of brows are corrugated with thought and worry many times, on how and where to spread water.

So it's not merely a question of getting water to spread, Spreading it is saving it.

The first water spreading ever done under any water conservation program in history was right here in Orange county, on Santiago creek. The San Antonio Water company claims it was done there, and it is said that both spreading operations occurred during the same year, but government records reportedly credit the first spreading to Orange county.

Supervisor Willard Smith of Orange is authority for the statement that this initial spreading was done in 1900, in Santiago canyon, between Irvine park and what was known as the water farm, the Barham ranch, now owned by the Serrano and John T. Carpenter water companies. The site was about a mile below the park, abutting the Irvine ranch. Spreading was done later on the Irvine, about 1906 or 1907.

First Job

The first spreading job brought water through two ditches to a dam and reservoir on the water farm. Supervisor Smith, then a stripling, drove a team and scraper on the reservoir construction. Besides the reservoir there were several settling basins. Subsequently spreading was done at the present junction of Silverado and Modjeska canyon roads.

Some of the worry these days over spreading, which now is done chiefly on the Santa Ana river, concerns silting of the settling basins. This could be a disaster, water men say. But a gully-washing flood that would put a lot of water back of Prado dam, could probably scour all the silt away when released in sufficient volume from the dam, it is said.

Incidentally, Prado dam, built 10 years ago, may look like nothing much but a big empty insurance policy, but on at least one occasion it has prevented a flood big enough to probably have broken through the river banks into Anaheim had it not been checked. That was in 1943 when the water got 35 feet deep back of the dam.

Also incidentally, Fullerton dam is said to have on one occasion, all unknown to the public, saved Fullerton from one of those once-in-1000 years floods, due to a hard rain spell in the drainage area above. Nothing was said about it at the time, but the water really stacked up behind the dam, and could have wrecked Fullerton considerably.

Ineffective

About 90 per cent of spreading operations are above Jefferson street bridge in Santa Ana canyon. To the layman it may sound funny, but the water people do not let the stream flow below Olive-Anaheim bridge if they can help it, because it cannot be sunk effectively underground below that point.

The Orange County Water district, which does the spreading in that area, has five submerged dykes above Jefferson street bridge, and ridges the channel below the bridge for what ever gets down there.

The Orange County Flood control district operates three settling basins but has had no water run-off this year, so the basins have been idle. The chief basin is a 70-acre site at West Anaheim, connected by channel to a small basin near Manchester avenue. Another 10-acre basin is located at West and Chapman Sts. north of Garden Grove, and a third is east of Anaheim at Placentia and Orangethorpe Aves., in Carbon channel, operated jointly by the flood control district and the Anaheim Union Water company.

Annual meeting of the Cypress Church of the Nazarene took place on Wednesday evening. In the yearly report of the chairmen of the various organizations within the church, it was noted that there has been a steady growth in all departments.

The average attendance at Sunday school was 196, an increase of 35 or 11 per cent over the record of the previous year. Church membership has increased by 22 and the church has been filled to capacity every Sunday.

Children were enrolled in last summer's Daily Vacation Bible school numbering 188 and 27 babies were enrolled in the cradle roll.

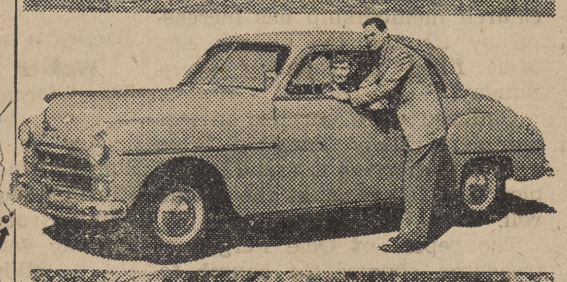
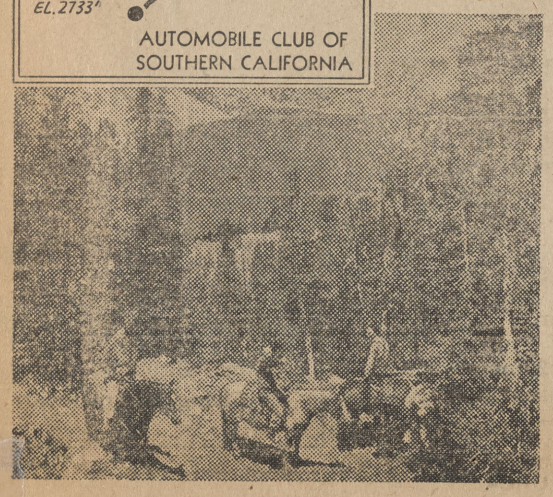
AUTO CLUB'S
TRIP OF THE WEEK

Fishing in the High Sierra





During the summer months, thousands of Southland anglers will again head for their favored High Sierra retreat to test their skill with rod and reel. This week's tour points out a wide variety of lakes and streams along the easterly side of the great mountain range and gives some indication as to why this area is one of the most popular recreational regions in the world.

● Gateway to this enticing trout fishing paradise is the bustling community of Bishop, which is the largest town in Owens Valley. Nearby Bishop Creek, Lake Sabrina and North and South lakes draw huge crowds of anglers during the season . . .

● Most popular early-season fishing haven is Crowley Lake (top photo), an artificial body that was created by the construction of the dam at the head of Owens River Gorge. Plenty of boats are available here as well as at nearby Convict Lake. Season at Crowley Lake ends July 31 . . .

● The vast region of lakes and resorts known collectively as Mammoth and June lakes typify the numerous recreation areas that dot the eastern High Sierra. Worth a visit is the famed Devil Post Pile, near Mammoth Lakes, which is a 40-foot cliff composed of nearly perfect prism columns . . .

● Thousands of back country lakes like the one illustrated in lower photo are not accessible by auto and may be reached only by packing in. Most of these lakes will not be open for fishing until late June or July, due to heavy snowfall . . .

● Scenes like center photo showing woman fishing in one of streams are much in evidence at various points. Camping spots are plentiful throughout the area . . .

● An alternate return route is outlined but is not recommended unless one has plenty of time. This course passes by Topaz Lake in Nevada, which opens April 1, and Walker Lake in Nevada, which is a year-round fishing haven. In most sections of the High Sierra country, the fishing season this year will run from April 29 to October 31.

PARK OIL "BOOM" ENDS; DRY WELL PLUGGED

Buena Park's hopes of becoming an oil "boom" town got a setback this week when the Humble Oil company informed the NEWS that the test well at Seventh St. and Los Robles Ave. had been abandoned and plugged at 9,564 feet.

The company drilled to a depth as "far as it thought wise" and then decided to abandon the well. Evidences of salt water influenced the decision of the company, it was said. The well has been plugged with concrete and equipment is being taken down this week.

Eighth Graders' Play Successful

The eighth grade presented its annual play, "The black widow" Thursday evening, April 27 in the school auditorium. A thrilling mystery, the cast did a nice piece of work. Under the direction of Miss Lambert, assisted by Mr. Winsor, both they and the players deserve much credit.

The members of the cast were Hattie Holmes, Colleen Phillips; Nan Saxton, Vevah Gail Bodkins; Dorcas Ann Diggs, Esther Mata; Miss Emma Crabtree, Karen Seibert; Asa Judd, Mike Troop; Orpha Quilp, Mary Lou Hoxsie; Quigley Quilp, Buddy Chambers; and Robert Noland, Noland Blackman.

The money received will go to help pay the expenses of the graduation class to the zoo in San Diego. According to latest reports, about $100 was cleared on the play.

Merchants Open League Season

by Paul Roggia

(Special to ENTERPRISE) — Cypress Merchants, piloted by Dick Hathcock, the defending champions of the NSA, open the 1950 season next Monday evening at the Norwalk county park promptly at 8 pm against the Western Consumers of Paramount, a new entry in this year's play. A large local gathering is expected to cheer the Cypress squad to action.

Hathcock plans to open with his ace, Eddie Arbiso on the hill with Joe Ferreira behind the plate. Lloyd Thompson will counter with Benny "The Whip" Evink on the mound with hard-hitting Rex Roberts behind the plate. This duo cavorted last year with the Coast Grain team of Norwalk.

The probable line-up for Cypress: Borgess, 2b; Gulman, ss; Reynolds, 1b; E. Arbiso, p; Wilson, cf; F. Ferreira, rf; Falls, 3b; J. Ferreira, c; and N. Duncan, lf.

On the following Monday, the Merchants will tangle with the Sheriff's outfit of Norwalk as a feature of Norwalk's big hometown day celebration.

ANOTHER HOMER BY C. HEAD DOESN'T WIN DEVILETTE TILT

Holding the El Modina Tom boys in check until the fourth inning was the best the Cypress Devilettes could do last week, as the El Modina aggregation pushed across seven runs in the fourth, then went on to a 17 to 4 victory.

Head Home Runs

Carolyn Head started the game for the local gals by belting a home run the first batter up in the first inning. El Modina dribbled in runs until the score at the end of the third was only 4 to 1 n favor the Tom Boys.

Then El Modina got their seven-run splurge, and five more in the fifth. Runs by Head, Darlene Greenwade and Helen Vezina helped the Devilette cause in the fifth, but marked the end of their scoring.

Pitching duties were handled by Catalina Boeckler, with Head doing the catching.

GEORGE'S CAFE FALLS BEFORE MERCHANTS

Cypress Merchant pitcher Eddie Arbiso gave up only two hits which were both home runs by the opposing pitcher in Tuesday night's tussle in which the local nine clipped George's cafe of Norwalk, 10 to 2.

Arbiso was the main stem of the local team, striking out 16 batters. Supporting Arbiso with power at the plate, the Merchants went into a safe lead in the first by scoring four runs, then got four more in the second frame.

MERCHANTS FALL TO HAWAIIAN GARDENS IN EIGHT INNINGS

After coming from behind and tieing the game up at five apiece in the seventh inning in a softball tussle with Hawaiian Gardens last week, the Merchants suffered a relapse and lost a 13 to 5 tilt.

Eddie Arbiso had to give up his pitching duties at the end of seven, and since none of the regular relief hurlers for the locals was present, the opponents hammered the fill-ins relentlessly in the extra stanza, garnering eight runs.

Duncan and Ferreira scored the first two runs for Cypress in the fifth. Johnny Borgess made one in the sixth, and Arbiso and Borgess scored the final two in the seventh.

Lynx Swamp El Monte in Two Shut-outs

Meeting El Monte twice in three days last week, the Buena Park Lynx toppled their opponents by the unladylike margins of 10 to 0 and 5 to 0.

Wednesday night's fray at the El Monte diamond saw the local gals uncork their hitting power in the first inning for five runs, then follow up with three in the third stanza. One in each of the fourth and the seventh completed the scoring.

Joan Alsup pitched a three-hit tussle to furnish the main reason for the victory ,while the hitters were paced by Anne Babashoff, Carolyn Broady and Max Clark who each hit two apiece. One of Babashoff's bingles was a double, while the longest hit of the evening was claimed by catcher Mary Whitney with a triple.

Local Game Is 5-0

When the El Monte girls showed up at Buena Park Recreation park Friday night, the Lynx were home run conscious. Mary Whitney repeated her 'longest hitter of the game' fame by belting a home in the first with two on. Robbie Mulkey repeated the feat in the sixth with one on.

Bev. Meissen held the visitors to three hits.

Averett Injured

Patty Averett was sidelined for about three weeks when she split her finger in infield practice. Averett is Lynx' second baseman.

LYNX OUT FOR REVENGE TUESDAY; MEET ORANGE HERE

Revenge will be the keynote next Tuesday night at 8 when the Lynx get their chance to repay the Orange Lionettes for the 1-0, 17-inning defeat the local gals suffered at Orange two weeks ago.

Monrovia will be the opponent of the Lynx Wednesday night at Amerige park in Fullerton when the Lynx will get their second night of competition. Game time is 8 p.m.

Both games will be televised over KFI-TV. They are also both Southern California league games.

TWO MEN INJURED IN AUTO CRASH NEAR HERE

Two men were injured, probably seriously, about 5:00 p.m., Tuesday of last week, when a car in which they were riding crashed with another machine at Orangethorpe Blvd. and Hanson Ave. In Fullerton General hospital are Arturio Gonzales, 66, and Isavero Alvarez, 58, both of Wintersburg. They suffered head injuries and internal hurts. The men were passengers in a car driven by Juan Arevalos, 62, also of Wintersburg, which crashed with one driven by Charles E. Pott, 27, of Pomona, the California Highway patrol reported.

Engineers Predict County Portion Of Freeway to Be Finished by Summer

Completion of the Orange county portion of Santa Ana Freeway by next summer was predicted this week by State Highway engineers, who also disclosed that Huntington Beach Blvd. (Hwy. 39) will be developed into a major north-south artery to connect the freeway with Huntington Beach and Coast Hwy.

Harrison Baker, assistant state highway engineer, and Paul S. Harding, engineer in charge of the Los Angeles office, outlined the freeway project to Associated Chambers of Commerce members and guests at the Santa Ana Community center.

There will be only one grade separation on the Orange county section of the freeway, however. That will be at the Santa Ana Blvd.-Chapman Ave. intersection at Orange County hospital, according to Harding. The rest of the freeway will be a divided highway with four traffic lanes into Los Angeles.

When traffic flow warrants, additional overpasses at major arteries, specifically Grand Ave., Orangethorpe Blvd., both in Buena Park, and Lincoln Blvd. at Anaheim will be constructed. These overpasses cost about $250,000 each, and there is not now sufficient funds for the grade separations as originally planned, the engineers explained.

ANNUAL VFW POPPY DRIVE IN COUNTY

Veterans of Foreign Wars will stage their annual Poppy day drive May 26 to 30, for the benefit of sick and disabled veterans in veterans hospitals, also for the relief of disabled veterans in Orange county.

In Santa Ana the drive will open with sale of a poppy to Mayor Allen Mandy in the city council meeting May 24 by Angus McDougal, commander of the VFW.

RIEDEL YOUNGSTER ON ROAD TO RECOVERY ON EVE OF FLIGHT

Dickie Riedel, whose father was one-half of the one-time world-famous endurance flight team of Bill Barris and Dick Riedel, and whose parents now reside in Buena Park, is well on his way to recovery from arthritis at the clinic in Hot Springs, Ark. The lad is 11 years of age and has been at the clinic for over a year.

The Optimist club of Hot Springs arranged to underwrite the cost of the care of the lad at the Leo N. Levi Memorial hospital soon after Barris and Riedel made their historic flight that set a new record of 1008 hours.

Riedel is still employed at the Fullerton airport but Barris, who used to live in Buena Park, has now moved to Apple Valley where he is employed on the real estate development there.

Mr. and Mrs. James C. Preston returned from San Francisco leaving their daughter and granddaughter, Mrs. N. A. Morris and Norma Jean, to board the ship Gaffey for Guam. It will take 16 days to make the trip.
